Site Development Committee

A great friend of our parish, Lamar Suddeth, has come through again in help us with a site development need. The first week of the new year Lamar and his crew installed a drainage pipe and fill so that the grading of our future loop road around our site is now complete at the front of our property. This now gives us the graded connection to Pilgrim Mill road that we have been wanting to complete. Photos show Lamar's crew putting in the pipe and the completed work. If you happen to see him, please thank Lamar for the work he has done for our parish.

I gave an update on our site development ministry during the Annual Meeting and mentioned a small brochure that shows completed and future projects on our site. This brochure has been updated and is available on the table in the parish hall if you would like one.

Site Development Chair

Men's Breakfast

We had a great Men's Breakfast in January, with 22 attendees. The next Men's breakfast will be on Saturday, February 12th at 8:30 AM in the parish hall. All men of the parish are welcome to join us for some good food and fellowship.
